## OBJECTIVE

- Enthusiastic and skilled Front-End Developer with a passion for web application development. I am fascinated by modern web technologies and have a goal to enhance my knowledge and skills by working on exciting projects. My objective is to deliver high-quality web applications and embrace the use of the latest tools and methodologies in the field of Front-End development.

## EDUCATION

- robot_dreams JavaScript Developer - 10.22 - 07.23
- Acquired front-end development skills, particularly focusing on utilizing the React library.
- Simultaneously, actively engaged in self-study and practical exercises, utilizing various online resources.

## PROJECT

Weather Application and back end

- Built using the React library for the front-end and Node.js for the back-end.
- Developed a weather application that retrieves data from an external API.
- Utilized additional dependencies such as Redux Toolkit, Axios, React Router DOM, Sass, Express, Mongoose, and more.
- Proficient in managing dependencies and setting up development environments.
